

Board Members Stakeholders and Participants

Like many other public agencies, we are limiting non-essential services including meetings that require access to public facilities. Our employer, RGS, supports this as a best practice for limiting spread of the corona virus and keeping our community safe. Currently we are focused on doing our part to advance our work while staying safe through this difficult time. Fortunately, RGS has long been equipped for remote service. So effective immediately, our team will use our remote technologies to continue services to all of you in the most effective and safe manner possible.

Much of work over the past few years is heavily dependent on public meetings. We are currently evaluating best practices that are rapidly emerging on how best to maintain our public participation and decision-making process in the most effective way. Our current expectation is to conduct as many of our activities as possible using teleconferencing, e-mails and other appropriate remote technologies.

Our contact information is below. You are welcome to reach out to us to discuss your needs and how we can best be of service. We will also post updates and information on our website at svbgsa.org. Let us know how we can help you!

We appreciate you working with us to benefit everyone's wellbeing.
