

SVBGSA Board Alternate Vacancy - Public Member

Extended filing deadline: November 2, 2020

The Salinas Valley Basin Groundwater Sustainability Agency (SVBGSA) was created by a Joint Powers Agreement (JPA) in December 2016 pursuant to the California Sustainable Groundwater Management Act. The SVBGSA is governed by eleven primary Directors, and each primary director has an alternate director who serves in his or her absence. In keeping with the JPA provisions, Monterey County appoints the Public Member Directors to the Board. The term of the Alternate Public Member Director expires July 2022.

Directors must be permanent residents within the Basin, or representatives of an agency with jurisdiction, or a business or organization with a presence within the Basin. The appointee must have a basic understanding of the Salinas Valley Groundwater Basin and groundwater in general, an understanding of how to run an organization, and the ability to work collaboratively with other directors coming from diverse constituencies. In addition, the appointee must be a rural residential Well owner; or a representative of an industrial processor, a Local Small or State Small Water System (a public water system with less than 15 but more than 1 connection), or of a mutual water company.

Applicants should complete the application below and email it to clerk@svbgsa.org by November 2, 2020. The SVBGSA Board will consider making an appointment recommendation prior to forwarding applications to the Monterey County Board of Supervisors for consideration.
